ABOUT ME

- I have been working as a Full Stack developer and have an experience of **6+ years**
- Have good exposure in JavaScript technologies such as **React JS, Next JS & Node JS**. Strong experience in building Single Page Application using the React JS, JavaScript, Redux, Bootstrap and CSS for Styling and making a responsive and good-looking application.
- Have experience in creating backend application using **NodeJS in express framework**. Hands-on experience in database technologies like MySQL and Mongo db. Also have good exposure to Some of the **AWS services** like EC2, S3 ,Redis etc.
- Strong expertise in designing automation-driven systems, **integrating AI (LLMs)**.

WORK EXPERIENCE

Title: National Pens I Full Stack Developer

June 2023 – PRESENT - Cimpres

- Led development of automated **ART (Artwork Review & Approval) system** for customized orders, reducing Care Agent dependency by ~60–70% and improving turnaround time by ~30%.
- Integrated **LLM-based AI refinement** to transform artist comments into professional, customer-ready communication, reducing revision cycles.
- Owned end-to-end implementation of **Wishlist feature**, enhancing personalization capabilities.
- Implemented **Redis-based queue optimization**, improving processing efficiency and system reliability.

SKILLS

Proficient with:

ReactJS I NodeJS I GIT I JavaScript I HTML I CSS IBootstrap I Express Framework I Microservices I Unit Testing I Redux I Thunk I MYSQL I Sequelize I ORM I EC2 I S3 I Postman I Joi I Logger I Cron I PM2

Familiar with:

NextJS I AWS I Lambda I Mongoose I MongoDB

Soft Skills

Leadership I Problem Solving I Decision Making

Leadership

Led a team of 3–4 developers.

Owned multiple end-to-end feature implementations in production-scale systems.

EDUCATION

VESIT - (MCA - Master of Computer Applications)

University of Mumbai I Graduated 2020

VPM - (BSCIT)

University of Mumbai I Graduated 2017
